

## Training Programs At A Glance

### **Personal Chef & Dinner Parties 1-2-3**

Two training programs in one textbook, and available online as a combo package or for separate purchase. Clear instructions on how to take you through every step required to start and operate a successful Personal Chef & Dinner Parties business. Plus, access to a wealth of supplemental information is included, referred to as your Digital Resources.

### **Commercial Kitchens 1-2-3**

A one-of-a kind collection of all things involved with the startup and operation of a commercial kitchen. Whether you want to rent, buy or build – we've got you covered. Available in textbook format or online. Plus, access to a wealth of supplemental information is included, referred to as your Digital Resources.

### **Culinary Skills Instruction 1-2-3**

Learn how to use your existing culinary talents to create classes to teach others your skills. This is not meant to replace a formal and very expensive culinary arts class, rather the ability to assemble smaller, short term teaching environments and drawing from your own first-hand culinary skills knowledge. This program is currently only available online. Note: if you are not one of those people comfortable as the center of attention and speaking to small groups, this may not be a good fit for you.

### **Personal Chef Certificate Examination Series (an industry exclusive)**

The optional Personal Chef Certificate (PCC) examination series is the gold standard in recognizing and identifying that an individual has a solid grasp concerning the business elements and requirements to start and operate a home-based Personal Chef Service business. This examination series is a requirement for all individuals wishing to join the United States Personal Chef Association (USPCA). Even if you are uncertain about joining a professional trade association, the PCC remains an excellent marketing tool for you and demonstrates your commitment and recognized talents. A similar examination series is not yet available for Dinner Parties, Commercial Kitchens or Culinary Skills Instruction.

### **Dinner Parties 1-2-3**

This is another step-by-step instructional program focused on providing dinner parties as a business. Just as with the Personal Chef training program, you learn the requirements and how-to information needed to launch your new service. This program is included with the combo package at the top, but is also available as a stand-alone online training program. And as with all of our programs, your supplemental Digital Resources are included.
